CITIZENS' TRUST CO. BUILDING.

CITIZENS' TRUST BUILDING

TELLS OF THE STORY OF DEVELOPMENT IN THIS PLACE.

List of Those Who Contributed to Create the Completed Building. Pictured Above.

The picture of the handsome new banking building of The Citizens' Trust Company is presented this week by the COMPILER with special gratification as the evidence of the new era which has developed in Gettysburg. In the business world here the tendency has been decidedly marked toward up-to-date equipments and improvements. The big dry goods store building of G. W. Weaver & Son is an example, such a house as is seldom found out of the cities. Another is the cigar store of Geo. E. Stock, one of the finest in Southern Pennsylvania. It is to be expected that this town will see many developments along the same line in the coming years. Gettysburg is no back number, but an up-to-date community with the best modern developments, a perfect sewer system three-fourths done, a number one water plant giving analyzed pure water, well lighted from electric light and gas plants, hotels such as cannot be found in a town of its size and a business world alive to the needs of the day.

The Citizens' Trust Company building has been described in these columns before. The picture will give an idea of building not to be conveyed in words. The reception given Tuesday of last week brought hundreds to see and praise the building. The lunch served was one of the most successful features of the occasion and special credit for the same is due to Mrs. Plymire who was the caterer for the occasion. There was nothing but praise from every side for the refreshments, from the delicious oyster sandwich to coffee. Eight young ladies helped in the serving, Misses Alice and Elsie Martin, Maude and Helen Bream, Lillie and Lula Christianman, Marie Ziegler and Ruth Clutz.

The building is largely the creation of Gettysburg men. The building committee was composed of John M. Warner, Geo. W. Schwartz and Wm. T. Ziegler. Many plans were submitted but the interior arrangement largely followed a plan of Mr. Warner and the committee and every one who has seen building and its appointments unite in declaring it to be ideal. The architects were Herman and Loeber of York, who planned the brown stone front. The general contractor was Wm. H. Johns of this place. Felix Foller did the brick work, C. W. Ziegler & Co. furnished the handsome granite case of building, the largest blocks of native granite ever quarried here, and E. N. Kohn of Hanover did the brown stone work. The plastering was work of John Uiz, and the ornamental plastering and carving on brown stone was done by Thos. Carroll of York. Wm. Bushman did the painting. The tile and marble was furnished and placed by Tom McEllis and the masonry work was made by the Hagerstown Slaw Case Co. The York saw Co. furnished a cut. The sanitary plumbing was done by

R. D. Amior & Son, and the hot water plant was installed by Allan B. Plank & Bro. The furniture in Directors' room, ladies' parlor and bank was bought of Chas. S. Munger and the rugs from Dougherty & Hartley. Ernest Ziegler wired the building. Geo. Slonaker and John A. Menchey had contract for excavating the cellar. The bank officials completed their fitting on last Wednesday and Treasurer R. Wm. Bream, Assistant Treasurer Harry Snyder and Teller Paul Martin were busy last week in new building getting things in order, while Janitor Rev. Lyles bustled himself in the cleaning and care of building.

Like Finding Money.

L. M. Buehler, the popular druggist, is making an offer that is just like finding money, for he is selling a regular 50 cent bottle of Dr. Howard's celebrated specific for the cure of constipation and dyspepsia at half-price. In addition to this large discount he agrees to return the money to any purchaser whom the specific does not cure. It is quite unusual to be able to buy 50¢ pieces for a quarter, but that is what this offer really means, for it is only recently, through the solicitation of Druggist Buehler that this medicine could be bought for less than fifty cents, he urged the proprietors to allow him to sell it at this reduced price for a little while, agreeing to sell a certain amount. The result has justified his good judgment, for the sale has been something remarkable.

Anyone who suffers with headache, dyspepsia, dizziness, sour stomach, specks before the eyes, or any liver trouble, should take advantage of this opportunity, for Dr. Howard's specific will cure all these troubles. But if by chance it should not, L. M. Buehler will return your money.

Low Priced Pianos

Have their place, when honestly made and honestly sold, but the best performers know they cannot secure results on any cheap piano. The Weaver Piano is not one of the cheap kind. It is made for those who pay a little more for superior quality, and it is meeting with the highest approval of these discriminating buyers everywhere.

NOT GUILTY-DIVIDES COST

JOHN H. MILLER IS GIVEN VERDICT OF FIFTY DOLLARS.

Ejectment Case Determined by a Curious Will—Eight Cases Were Settled.

When Court adjourned last Tuesday evening the jury had been charged in the case of Com. vs. Edward J. Spahr charged on oath of May Tipton with adultery and bastardy. Two hours later they concluded their labors and returned a verdict of not guilty, defendant to pay half the costs and prosecutrix to pay the other half of costs. The case presented many unusual developments and was stubbornly fought by counsel, Wm. Hersh and Donald P. McPherson, Esqs., assisting the District Attorney and W. C. Sheely, Esq., representing the defendant. Contradictions of the prosecutrix led up to the verdict rendered.

Of the twelve cases on the trial list of civil cases ten were finally determined, two being continued, the latter being the cases of H. & S. Lachman vs. The Fire Association of Philadelphia, and The Farmers' Fire Insurance Company of York, Pa. The defendants urged trial but as a third case of the same plaintiffs is in Superior Court undetermined the above cases were continued by Court.

The first case tried was that of John H. Miller vs. Penn'a. Railroad Company for \$5,000 damages for being put off train because short of fare as alleged. J. L. Williams and J. L. Butt, Esqs., represented plaintiff and Richard Cochran, Esq., of York the defendant. The case developed was one more of misunderstanding than any deliberate injury to plaintiff. Mr. Miller had gone to Hanover and there took train to go to visit an aunt. He gave the conductor 11 cents on the fare to Sell's Station and told the conductor he would get balance of fare from a friend. The conductor went through car and returned to Mr. Miller, who had borrowed the deficiency in fare, three cents. When Sell's Station was reached Mr. Miller did not get off and conductor went to him and it was represented that LeFevre Station was a nearer point to which Mr. Miller wished to go. A gentleman by name of Mr. Mehring came forward and offered to pay fare, tendering \$5 bill. The conductor took note and gave change, taking out fare to LeFevre. Mr. Miller was under impression that he was going to Littlestown to an aunt in that place, while conductor was under impression he was only going to LeFevre Station to an aunt, Mrs. Smith at toll gate on Littlestown and Hanover pike. When LeFevre was reached conductor helped Mr. Miller off. Mr. Miller contended that fare should have been taken to Littlestown and that he should have been carried there. The jury evidently concluding that it was only an unintentional misunderstanding gave the plaintiff a verdict of \$50 and the costs.

The next case taken up for trial was that of John Smith, Geo. Smith, A. J. Smith, Elizabeth Smith, Wm. Smith, Thomas Smith, Emma Smith, Pierce Smith, Mary Smith, Ella Smith, Clara Bond, Mamie Smith, Mary Smith, Demetia Myers, B. W. Ziegler, Elizabeth Luce and Wm. Sweinhart vs. Cyrus G. Beales and B. W. Ziegler, executors of alleged will of Thomas O. Reed, dec'd. Jacob F. Myers, W. P. R. Myers, J. L. Myers and Robert J. Sadler. The action was ejectment for a property in York Springs worth about \$2,000 and incidentally involved the title to valuable property in Indiana. The question was the alleged will of Thomas O. Reed, who died over 20 years ago. The contention was that the will was no good and decedent died intestate. The will was not signed but when probated by Judge Will the affidavits set out that will had been prepared at dictation of decedent, had been read to him, approved and when he was about to affix his signature he expired. The defendants contended that the will so made and probated as act required was legal and title made under it all right. The Court took latter view and ordered jury to render a verdict in favor of defendants. J. L. Williams and J. L. Butt, Esqs., represented plaintiffs and W. C. Sheely, Esq., defendants.

American Standard Jewelry Company vs. C. M. March was settled by a judgment by consent in favor of plaintiff for \$180.

H. H. Harm's vs. John Peter and Earl Peters, trading and doing business as John Peters & Company was settled by judgment by consent in favor of plaintiff for \$540.15.

Annie C. Stevens vs. Samuel L. P. slander case was settled by defendant paying the costs.

Catharine A. Diehl vs. Borough of New Oxford, trespass case for damages for taking water out of Little Conowago Creek for borough water plant to injury of defendant's mill was settled by paying plaintiff \$5.

The four cases of Helena Ricketts vs. Frank Hartlaub, trespass, Edward F. Straley vs. Frank Hartlaub, trespass, Frank J. Hartlaub vs. Helena Ricketts, trespass, and Edward

Straley vs. Frank Hartlaub, slander, were settled by Frank Hartlaub discontinuing the case he brought and paying the costs in the other cases, and hence, over which dispute occurred, being placed where it had stood.

Com. vs. Raymond Staub, charged with non-maintenance on oath of Prudence Staub, after hearing the Court sentenced defendant to pay his wife \$3 per week until birth of child and after that \$5 per week until further order of Court. This sentence was to begin at time of desertion and the \$300 already paid was to be accounted for in this order. Defendant was directed to enter into recognizance in \$300 to comply with this order.

Com. vs. James Henderson, charged with being a tramp on oath of Chas. H. Wilson, prisoner was discharged. Com. ex rel. Chas. H. Wilson vs. Gettysburg Gas Co., charged with polluting Rock Creek, which case had been certified into Quarter Sessions was dismissed, county to pay costs.

The cases of Com. vs. Fred Hall, charged with assault and battery on oath of Rebecca Hoffman, and Com. vs. Elias Laughman, charged with fornication and bastardy on oath of Maggie Lingz, were continued to April Sessions.

Com. vs. H. L. Hames and J. Fred Holtzinger, indicted with N. G. Meads for using and displaying a counterfeit Union cigar label, on oath of Geo. P. Allen, was nolle prossed on motion of District Attorney.

The widow's list under \$300 law in estate of Henry C. Barr, was approved subject to filing of exceptions within 20 days.

The sale of the real estate of Peter Baker, deceased, situated in Hamilton township, was confirmed absolute.

Hannah Bushey, T. S. Patterson and J. W. Frommeyer were discharged as administrators of Edward I. Bushey, late of East Berlin.

Clement F. Ling and John Krug, of Oxford township, and Hon. John R. R. Bittenger, of Berwick township, were appointed viewers of bridge site over Little Conowago Creek, between Union and Conowago townships where road leading from Hanover and Littlestown turnpike at Swartz's school house crosses said creek to another point on said pike at Bollinger's Mill. Report of inspectors was filed approving the bridge and workmanship on same over Rock creek, at point where a road leading from Chambersburg and Hanover road to the Carlisle and Gettysburg road in Cumberland township crosses said creek.

Rule was awarded on heirs of George Johnson, late of Latimore township, to accept or refuse to accept real estate at the appraised value, returnable April 23.

John A. Hipple withdrew his application for tavern license for "Ocker House," Littlestown, and license was granted to Edgar W. Warren for said house.

Subpoenas in divorce were granted to libellants in cases of Martha C. Cook vs. Levi Cook and Bertha E. Reitzell vs. Samuel Reitzell.

Distribution of proceeds of sheriff's sale of real estate of Susan Porter was confirmed nisi.

John D. Keith, Esq., the new District Attorney, who has just entered upon the duties of his office is to be congratulated upon the manner in which he sets about their performance. The Grand Jury was discharged on Monday, the first day of the term, the like of which has not occurred for many years in the history of the county. Particularly is he to be credited with the settlement of f. and b. cases, which continue to be a reproach upon our Christian civilization and the state of public virtue. Only one of these cases was tried, and only one was not instituted in Mr. Keith's term. The trial of this case drew a large crowd to drink in its disgusting details. Young men as well as old do not go away from listening to such shameful recitals any better or purer than before, but certainly have received some damage to heart, mind or memory. This class of cases is usually accompanied with flagrant perjury, and besides in their recitals are unproductive of any good. The young women parties are made public spectacles of their shame and the county pays most of the costs of the exhibition, with the money of the people.

During the war he was a clerk in the store of Fahnestock Bros., in this place. In 1867 he went to Springfield and for a while was a clerk in the largest mercantile firm in that city and afterwards engaged in business on his own account. In 1892 he was elected police magistrate of Springfield and has held that position ever since, having been elected to the office for the fourth time in 1904 and was recognized as a justice without fear or favor. He leaves a wife, one son and two daughters. He is survived by six brothers, George M., David C. and John J. of Springfield, James W. of Ottawa, Kansas, Joseph G. of Stephen, Minn., and Henry M. of Wyoming.

Adam Kohr, Esq., recently elected to the Legislature in York county, was a visitor with his three little children at Gettysburg last Saturday. Squire Kohr is one of the old fashioned Democrats of York county and was elected by over 2,000 majority. He is not one of the kind that would vote for Marshall for Speaker and Quay for U. S. Senator. The people now have no use for that kind of a representative and above all a Democrat who would betray his party in that way. We are indebted to Mr. Lafean for multiplying offices upon one man and thus making room for as genuine a Democrat as Squire Kohr, although Mr. Lafean's bestowing appointments upon Republican members cost York county over \$5,000 for the special election.

Scales on Face and Head—Threw off Little Watery Substance—Scratching Caused Very Bad Sores to Form—Other Remedies Did No Good.

COMPLETE CURE BY CUTICURA REMEDIES

"I will be glad to give anybody suffering from eczema any information regarding Cuticura Remedies. When my little girl was about a year and a half old there developed small pimples on her face which went into a scale which threw off a little watery substance. Her head was also affected with it. She used to scratch until it bled, making very bad sores. We tried two or three salves, including borax. They did not do any good, so I got some Cuticura Soap first, and then used the Cuticura Soap, Ointment, and Pills. They completely cured her, and we have had no more bother with it. Anything you want to publish regarding this will be O. K. Yours respectfully, Wm. F. Knox, 1216 So. 35th St., Philadelphia, Pa., June 10, 1905."

ANOTHER CURE

SMALL VS. LARGE FARM

RECENT VISIT TO DEATRICK FARM DESCRIBED.

The Demands of Strenuous Modern Farming Outlined by a Successful Farmer.

The following notes are taken from an address delivered at the farmers' institute, East Berlin, about a month ago by J. D. Deatricks, "Small Farm vs. the Large Farm." Mr. Deatricks of "Fifteen-cows-to-fifteen-acres farm" is now putting his ideas into practice on a 320-acre farm. The writer visited this farm the latter part of last June.

Hartest Home Farm is situated in the beautiful Chester Valley. This valley farm of 340 acres of which 86 acres are woodland, was purchased a year and a half ago by Clarence S. Kates, a well-to-do gentleman, who believes that in Mr. Deatricks he has found just the man to give success out of the soil. Mr. Deatricks is the director, Mr. Kates is the proprietor both live on the farm in separate houses.

Mr. Deatricks compared the small branch railroad with the Pennsylvania railroad. The latter is equipped with the latest machinery and so systematized as to do the greatest amount of business with smallest amount of expense and labor. The small railroad is not so equipped and the expense is larger in comparison with the large railroad. So with the small farm, there is too much finger work, in handling of manure which is feed for field as man is feed for cow; it is not so much the amount but the quality and should be applied in its best state. On the small farm the manure is loaded by hand and pushed by hand into yard and after exposed to the bleaching of rains or has heated and the valuable part gone into air, is then loaded again into wagon and hauled into field and spread by hand. Whereas on large farm it is loaded in car and hauled to and dumped in manure spreader and goes direct to the field. A 50 bushel manure spreader is worked nicely by two horses. The small farm is not large enough to afford the necessary machinery to do the work economically and with least expense.

Speaks of oats crop as being a curse so hard to handle on a large farm. He grows oats and Canada field peas and cut in one-fourth inch length and puts in silo. When cut so short no air space in hollow stem. He has siloed 30 acres past summer and has had excellent silage. He sows Canada field peas as early in spring as the ground can be worked, two and one-half inches deep, oats one inch deep. Sows Canada field peas first, then cross drills the oats. He also grows corn for silo which he cuts low down. The half of the value of corn plant is from a man's hip to the ground, uses large cutter with 26 inch knives in order to do the work quick. Every thing must be done at the right time.

As soon as oats and peas are off commences to manure for grass then plows and harrows and harrows until ground is thoroughly pulverized. On the 20th of August sows 6 qts. of red clover, 5 qts. of timothy, 2 1/2 lbs. of alsace clover, 1 lb. of red top per acre. Making hay he cuts around the field, rakes with side delivery rake, loads with hay loader, upon wagon with sling so arranged when in barn hay rope hooked to sling and hoisted to mow.

Mr. Deatricks says this is an age of machinery, everything must be done quickly and with as little hand labor as possible. He referred to a milking machine that gives promise of being a success, so constructed with glass tubes as to show when to stop milking and not to continue and injure cow, as has been the trouble with many of the machines that have been tried.

The new barn built this summer is 25 ft. long, 40 ft. wide, with overhangs of 6 ft. wide on either side, designed to hold 100 cows. A T is to be added

The Amen of marriage is always a baby. Without it, wedlock is a summer field that never blooms, a flower that never buds, a night without stars, a sermon without a benediction, a prayer without an Amen.

There never was a husband worthy of the name, who did not agree to be the father and the grandfather of healthy, capable children, to hand down his name and the fortune accumulated by the sweat of his brow, from generation to generation. There never was a wife fit to bear that noble title, who did not wish to wear womanhood's most glorious crown, the scepter of motherhood. Thousands of wedded couples otherwise happy, fall short of wedlock's greatest happiness because they are childless. In the majority of cases, this is because the wife, through ignorance or neglect, suffers from weakness and disease of the organs distinctly feminine. For women who suffer in this way there is one great medicine that does not fail to accomplish its purpose. It is Dr. Pierce's Favorite Prescription. It acts directly on the delicate organs concerned and makes them strong, healthy, vigorous and virile. It allays inflammation, heals ulceration, soothes pain and restores the shattered nerves. It fits for wifehood and motherhood. It quickens and vitalizes the distinctly feminine organism. It banishes the malady of the expectant months and makes baby's introduction to the world easy and almost painless. It insures the new-comer's health and nourishment in plenty. It is the best supportive tonic for nursing mothers.

Mrs. Jennie Parks, of Marshall, Spokan Co., Wash., writes: "I am glad to tell the good results of your great medicine. Dr. Pierce's Favorite Prescription. It gives me strength. I have no tired feeling and my baby is the picture of health. I feel better than I have in 20 years."

In case of constipation Dr. Pierce's Pleasant Pellets should be used as an adjunct to "Favorite Prescription." They are extremely simple, perfectly natural and insure prompt and permanent relief.

THE above picture of the man and fish is the trademark of Scott's Emulsion, and is the synonym for strength and purity. It is sold in almost all the civilized countries of the globe.

If the cod fish became extinct it would be a world-wide calamity, because the oil that comes from its liver surpasses all other fats in nourishing and life-giving properties. Thirty years ago the proprietors of Scott's Emulsion found a way of preparing cod liver oil so that everyone can take it and get the full value of the oil without the objectionable taste. Scott's Emulsion is the best thing in the world for weak, backward children, thin, delicate people, and all conditions of wasting and lost strength.

later that will bring up the total capacity to 200. The old barn is to be used for dry cows.

Each cow has a white porcelain manger and ample room and sunlight, cement floor, ceiling rafters and double floor overhead, running water, electric lights, etc.

The cow quarters are on the ground floor and it is a place where "corners" are tabooed, all right angle joints are made slightly concave so that dirt and germs will find no lodging place. At least Mr. Deatricks says it is far easier to clean a round than a square corner. There is a room on first floor to store seven car loads of feed such as bran, gluten, cottonseed and linseed meal, also a mixing room where the proper rations are weighed out and mixed with ensilage and hay, and dropped into the kitchen into a car. Along a center aisle the feed car is run past the manger of each cow.

Instead of buying great quantities of commercial fertilizers, Mr. Deatricks' plan is to buy bran, gluten, cottonseed and linseed meal, etc., feed to the cows and then feed it to the land. Incidentally a profit should come from the milk sold and the use of commercial fertilizers will be reduced to a minimum. The farm is to revolve around a central idea of cows, hogs, poultry and soil improvement. There are to be no pastures.

Nobody but a billionaire can afford to pasture states Mr. Deatricks. Soiling is the correct idea. Grow the feed and bring it to the cows, rye, oats and peas, sweet corn, ensilage, hay, etc., are the key notes of modern farming. The pasture is a back number.

Mr. Deatricks breeds his own cows, farmers will not sell good cows, keep a good bull and breed for a purpose. One rule, always breed a cow to bull that is better than the cow. Bull should come from good cow and from good bull, do not breed two extremes, a jersey to short horn it will be a failure, it is much more difficult to cross breed than breed in pure strain.

Mr. Deatricks on his fifteen-acre farm at Flourentown near Phila. succeeded in keeping thirty one head of cattle of all ages and two horses, that means he raised all the roughage for them, hay, fodder, ensilage and soiling crops, and only bought bran, grain, etc.

How close Mr. Deatricks can come on a large scale to his Flourentown record will be a matter for the world to watch with great interest. If he succeeds in bringing a large old rundown farm up to anywhere near his idea it will be a remarkable feat.

LOST THUMB AND FINGER.

Two Taverns, Jan. 26.—On Friday evening Jan. 19, Milton E. Snyder met with a serious accident. Mr. Snyder has owned and operated a threshing rig and saw mill for eight years and recently sold the rig to L. C. Collins and was assisting in sawing a tract of timber for Wm. Arentz, when the saw needed adjusting. In making same while machine was in motion, the wrench slipped and threw his left hand into the saw necessitating the amputation of thumb and two fingers. The operation was performed by Drs. E. K. Freeman and R. Lindeman. At this writing Mr. Snyder is getting along nicely.

Mrs. John A. Collins is on the sick list, also John A. Orndorff, Jr. Our tax collector, J. J. Epley, says

he could gather dandelions next week if it doesn't snow.

Wm. Arentz is preparing to build a large bank barn in the spring.

Simon Miller will build a large wagon shed.

FAST BUTCHERING

Orrianna, Pa., Jan. 26.—Samantha Pepple aged 11 years, who has not missed a day at school since she began to go, which was four successive terms, and the present one, was forced to miss last week on account of measles.

Year \$1.50

Gettysburg, Pa., Wednesday, Jan. 31 1906

One on the Editor.

It may have been only a jokelet, though it was declared to be a case of mistaken identity. The editor of this paper visited Harrisburg last week and while there sauntered up to the new capitol building and wandering around stumbled into the chamber where the House was in session. He supposed he had on his Democratic looks. While entranced with the lack of oratory of some windy fellows shouting off their mouths, a large corpulent fellow, looking like a ward leader, put his arms around the shoulders of the editor, saying, "Beg pardon, but isn't your name Quay?" It was all done with an air as though he had said, it doesn't matter if the Old Man is dead, so long as you belong to the family of the \$20,000 statue man. The editor looked his fond admirer over, then quietly and gently broke the truth with one word "wrong." He can still feel that affectionate laying of hands on his shoulder falling off. That we did not say, "Neither is our name Was Durham," was only because we didn't think last enough.

Party.

A party of young folks of Mountjoy and Straban townships spent last Friday evening with F. D. Schriver and family of latter township. Incendiary Fire.

On last Thursday night the farm on farm of O. F. Aspers, near Bernadine church, this county, burned to ground. The family were in bed and were awakened about 1 o'clock by the glare of the fire. The flames were under such a headway when they reached buildings that they could only do what was possible to save the stock. The horses and milk cows were saved but seven young cattle burned to death, all the grain in barn, 700 bushels of corn and all the farming implements except a large wagon. The fire is said to have been of incendiary origin without a doubt, suspicion resting on certain parties. The loss will amount to over \$1000 with \$900 insurance to the Mummaburg company.

Delicate Operation.

Charles Dougherty, residing near Bernadine, was operated on last week by Dr. J. L. Specter of New York. The operation was successful. The patient is now recovering and will be discharged in a few days. The operation was performed by Dr. J. L. Specter, New York.

Will Our Farmer Friends Get Wise ?

It requires some extra effort to farm intelligently and get the most out of a crop after it has been produced. That it pays to use the

CREAM SEPARATOR,

MANURE SPREADER,

CORN GRINDER,

GASOLINE ENGINE,

and other modern Implements, there is no question. In fact the modern farmer realizes that the profits per acre have been more than doubled since the era of farming on business principles as exemplified in use of modern tools and methods.

The modern farmer is well posted on all these things and even before the winter is over he begins to think about his Spring needs and requirements in the way of implements. We have been thinking about them too for so long that we have our goods all bought and some of them in, and we want to call the attention of every farmer in Adams county to the fact that right here is the place to buy any Farm Implement which he needs. We have made a special effort to put in the best implements which are manufactured for the season of 1906. Take for instance the

J. I. CASE EDGE DROP CORN PLANTER.

"Half the Crop is in the Drop."

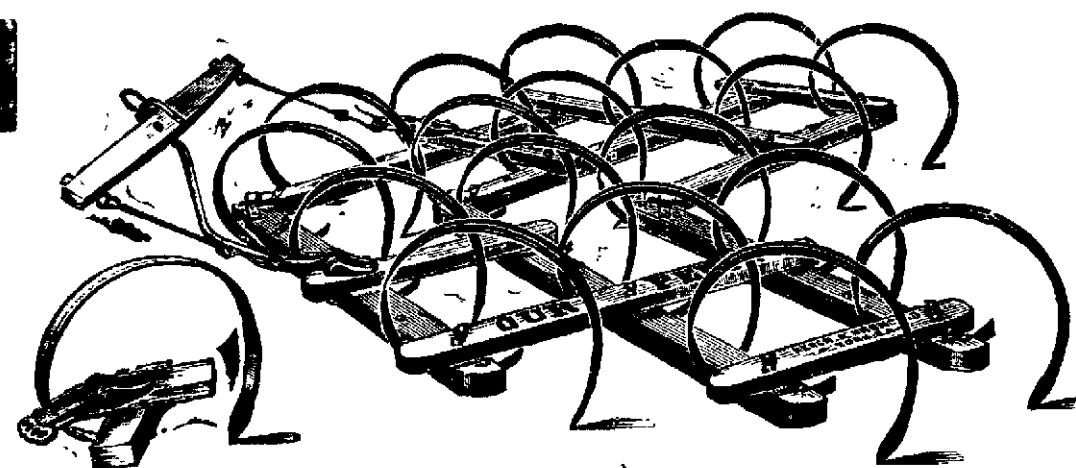

A good Planter is supposed to drop accurately a given number of kernels to the hill. This Corn Planter will do this to the highest point of accuracy attainable. And this isn't the only thing to be considered in buying a Corn Planter either. Positive drive, a clutch that will wear well and can be easily kept in repair, dropping in check, easy lift and durability, are all points that should be taken into consideration. The

J. I. CASE CHECK ROW EDGE DROP CORN PLANTER

possesses all the good points known to the art. This planter is not an experiment, but has stood the practical test of field use and planted thousands of acres in a manner entirely satisfactory to many farmers. We are positive that any farmer who will try this planter will pronounce it superior to any other he ever used. We guarantee them to be satisfactory.

Our full line of Machinery has been selected on the same principle. The wise farmer will come here and see our

before he buys either at a sale or from any other dealer, as there is more satisfaction in buying a guaranteed piece of machinery than to buy a second-hand implement.

PITTSBURG PERFECT FENCE

FARM PROFITS:

Every rod of good fence on your farm helps to cheapen the cost of your hogs, bees, sheep and horses.

The better and greater the quantity of good fence on the farm the higher the price per acre.

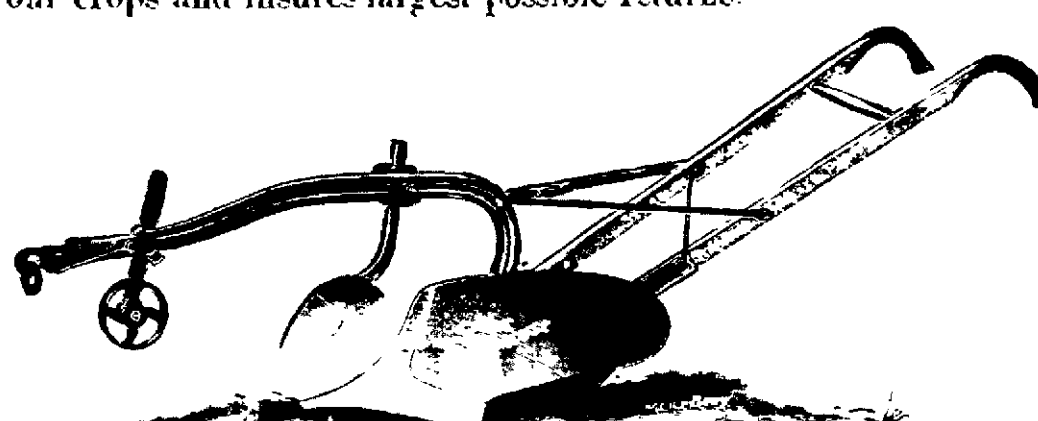

If you do not raise stock, the good fence protects your crops and insures largest possible returns.

Thousands of investors are making fortunes by buying up so-called "run-down" farms, putting on a few buildings and good fences, then selling them for improved up-to-date farms. Good fences, well built, pay bigger dividends than good barns and good houses.

Pittsburg Perfect Fence beats them all. We are the agents for it in Adams county.

LITTLESTOWN TEACHERS HOLD HELPFUL MEETINGS.

News of the Day at White Hall, Iron Springs and Bendersville.

Littlestown, Jan. 26.—Our borough teachers are holding meetings every two weeks at which different educational topics are discussed and various methods and suggestions considered for the improvement of the local school system. Instead of holding a district institute once or twice a year in conjunction with the teachers of the surrounding townships as formerly, our local teachers have adopted the above plan, which is far more preferable and beneficial than the old.

The Keller property on South Queen street was sold last week to Chas. Stonestier of Wayneboro for \$125.

The weather on Sunday was of the summer variety and our streets presented a corresponding appearance, much promenading and driving being indulged in. With the grass turning green and the bees and other insects uttering about on the outside of windows striving to reach the flowers within, the present January presents a striking contrast to that of last year.

Iron Springs, Jan. 26.—Milton Wetzel, who resides at Union school house, Hamiltonban township, made a business trip to Gettysburg on last Wednesday.

Samuel Rensel visited friends at New Midway, Md., several days last week.

Geo. Mills is reported on the sick list. Mrs. Manie Hummelbaugh made a business trip to Gettysburg on last Saturday.

Mrs. Calvin Wills and Mrs. Cora Martin and little son Glenn from Fountain Dale were visiting at Eph. Sauer's last week.

Squire Frank Cashman from near Mt. Carmel Church called upon J. E. Kissinger recently.

Bendersville, Jan. 26.—E. W. Walhay has been very ill for the past month.

J. T. Myers of York Springs recently visited W. W. Dettler and family.

S. B. Gochmair returned Sunday last from a business trip to New Jersey. The Odd Fellows will hold a banquet in their hall on Friday night Feb. 2 to which all members and their families are invited.

Edward Black last week purchased the D. B. Hewitt property on South Main street for \$900.

M. S. Cashman left this week for Indiana, where he will purchase a carload of horses which will be sold here at public sale on Jan. 31.

H. J. Gulden left last week for North Carolina where he is placing machinery in a grist mill.

Wilson Blocher was home for a few days this week from Maryland.

After spending a few days in Philadelphia recently, James Myers returned Saturday last.

D. P. D.

White Hall, Jan. 2.—We are having remarkable January weather, Sunday was a regular spring day. Next morning the temperature at 9 o'clock, was 58. Ice men are becoming anxious, fearful that there will not be a crop of ice to fill their houses. Let us wait patiently and see what February has in store for us. By referring to my diary in years gone by I find that February has the record for cold weather, with here and there an exception.

Rev. Bastian preached a series of sermons at St. Luke's church last week which were highly appreciated by his large congregations. On Sunday he held holy communion at the same church. Notwithstanding the terrible condition of the roads there was a large audience present.

On Saturday there was a shooting match held at the hotel in this place for 500 lb. bull. Quite a crowd gathered, and an exceptionally well behaved crowd it was. After shooting one round there were about 10 ties, which required shooting off, when Eugene Devine captured the prize.

Our butcher, Solomon Bupp, is about through for this season. He was engaged, with few exceptions, from the beginning of November last to this time. He enjoys the business and is a jolly good fellow.

Wm. K. Weikert pulled his engine and rig in his engine house on last Friday. He had been busily engaged since harvest in threshing wheat, husking corn, shredding fodder and sawing wood. He does not intend to take his engine out again this winter.

Colds are very prevalent in this community, owing no doubt to the changeable weather.

BUSY INSECT EATERS.

What One Day's Hunting Brought to a Brood of Pied Wagtails.

A city student of bird life writes: "A collection of several species of insectivorous birds has shown that the Pied Wagtail, when their family is growing up, make between them in the neighborhood of 500 visits to the nest in the course of a day, carrying on each occasion a whole beak load of gnats or spiders or larvae. For the birds which feed on gnats or other small life generally take to their young not single insects, but a whole collection at a time. On one occasion I spent an hour in taking the record of a pied wagtail which had its brood of newly fledged young ones in an old discarded punt that had settled down at its moorings into the mud at the side of the pond. During the hour the male bird alone was looking after the family; the female amused herself by running about on the bank catching insects for her own consumption and varying the occupation with long spells of attention to her toilet. The male bird, on the other hand, never rested for one minute from his work of bread-winning. As his hunting ground was the open surface of the pond, above which he flitted, he was never out of my sight.

"In the course of the hour he made twenty-eight trips, the shortest absence from the young lasting one and a half minutes and the longest nearly six minutes. On no occasion did he remain at the punt for more than fifteen seconds or just long enough to turn over the food collected on the last trip to the proper youngster and be off again. Myriads of gnats were dancing above the water, and at each dip the bird struck at one, but one could not see whether he always caught his quarry or not. As far as it was possible to guess he always did. On his shortest absence he made over forty shots, and from that the number ran up to considerably over 200.

"Supposing that he missed his aim half the time or afterward dropped or swallowed the insects, so that half of them were wasted and failed to reach the family at home, there must have been from 1,500 to 2,000 gnats brought back to the punt in the course of that one hour. Later in the day both parent birds were hawking simultaneously, each returning methodically to the young every two or three minutes. What the gross consumption of insects was in the course of the day it is impossible to guess, but it can hardly have been less than 10,000 or 15,000 and was probably twice as many."

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case that it fails to cure. Send for circulars and testimonials.

GREEK ATHLETES.

The Way They Ran and the Style of Track They Used.

In the foot races of the ancient Greeks, says a writer, "the shape of the stadium caused a great change, since it was a U-shape, but it was narrow, with one or both ends so inclined. Consequently the runner had to take a sharp turn at the end of each lap, while except at the turn they were running a straight course. It is hardly to be imagined how much practice for the runners on the old Greek stadia athletes had, being (this one part of the race as a kind of drill, taking each movement separately.

In early times, when all the runners turned round the same post, the turn gave opportunities for foul play, and there are stories of one competitor tripping another at the post or seizing him by the hair to prevent his winning. But later, in the shorter distances at least, each runner had his own track and post to turn round, and probably the separate courses were roped off in much the same way as they are now in sprint races. For the start elaborate arrangements were made and at Olympia the stone slabs are still to be seen, with the grooves at regular intervals that had to be toed at starting.

"Greek long distance men ran in the most approved style of the present day. But the sprinters apparently employed a considerable amount of arm action and took very long steps, rising well on to the toes. Then there was the race in armor, an event highly praised by several of the Greek writers as a valuable preparation for war and which is supposed to explain the famous running charge of the Athenians at Marathon."

A Literary Coincidence.

"My father, W. Clark Russell," said Herbert Russell in telling of a literary coincidence, "had finished maturing the plot of his novel, 'The Death Ship,' which is a version of the legend of Vanderdecken. I was his amanuensis at the time. He said to me, 'Tomorrow we will begin the story.' On the following morning when I entered his study to take his dictation of the opening lines he showed me a letter he had just received. It was from W. S. Gilbert, the well known dramatist, asking him why he did not write a novel about the Flying Dutchman."

Glassmaking.

Much mystery has in times past attached to the art of glassmaking. It was formerly the custom for the workmen in setting pots in the glass furnace to protect themselves from the heat by dressing in the skins of wild animals from head to foot. To this queer garb were added glass goggles, and thus the most hideous looking monsters were readily presented to the eye. Show was made of themselves in the neighborhood, to the infinite alarm of children, old women and others.

GOOD FARMERS' MEETING

HELP ON THE FARM WAS DISCUSSED.

Other Topics—Fertilizers For Orchards—Value of Chicken Manure—Officers Elected.

The Adams County Agricultural Association held the January meeting in Hoffman's Hall, at Biglerville, Saturday, Jan. 20th, at 1:30 o'clock, H. M. Keller in the chair.

After collection of annual dues and receiving of new members, Association elected A. I. Weidner to represent Adams county in the State Board of Agriculture for the term of three years and Arthur Roberts as delegate to the annual meeting of the State Board of Agriculture, to be held at Harrisburg January 24th and 25th, 1906.

First topic—"Help on the Farm. How can we influence our Young People to Remain on the Farm?"

Samuel Bream said make home as pleasant and attractive as possible. Put no more labor on them than necessary, and pay good wages. Young people go to cities and towns and get higher wages but at the end of year do not have any more money saved than if they remained on the farm. Their expenses are more and they do not have the privilege of fresh air and sunshine, and horse and buggy to drive, as the young people do on the farm. Farm wages have increased one half in last twenty-five years. We must not think if we pay good wages that we must require more labor, but treat them kindly and make the farm and its surroundings pleasant and agreeable. Subject was discussed at length by C. D. Cook, A. Roberts, P. L. Houck and Wm. W. Boyer.

Second Topic—"Commercial Fertilizers for the Orchard." Rufus Lawver has had good results with a high grade fertilizer rich in potash and phosphoric acid. He applies one half ton per acre.

Third topic—"Value, Care and Application of Chicken Manure." W. W. Boyer knew of a party that keeps from 600 to 1000 chickens and had sold the manure from them for \$300. In one year. He says if chicken manure were properly cared for and prepared and mixed with potash and South Carolina Rock, a high grade fertilizer could be made at a minimum cost. Chicken manure contains a large percentage of nitrogen which is the highest priced ingredient that we can buy in fertilizer, by utilizing that we will save a good per cent. on our fertilizer bills. It was further discussed by P. L. Houck, H. M. Keller and others, who have had very good results by caring for and applying chicken manure.

Adjourned to meet at Arendtsville, February 17th, 1906. Secretary.

Bishop McCabe to Lecture.

One of the attractions to be offered to the people of Gettysburg next week is the lecture by Bishop C. C. McCabe on "Bright Side of Life in Libby Prison" in the Methodist Episcopal Church Saturday evening, Feb. 10.

With a great concourse of old soldiers, young soldiers and men, women and school children, we wended the way to the Central M. E. Church to hear Bishop Charles C. McCabe tell of his experience while in Libby Prison. About 2,000 people listened for about two hours to one of the most eloquent and charming talks ever heard in Wilkes-Barre. The magnetism of the Bishop is marvelous. Let us see why this. For a half century he has been an eloquent speaker, studying and working almost day and night; a teacher, a preacher, a singer, a writer, a soldier, a prisoner of war, a traveler, a lecturer, a missionary, a church builder, a philanthropist, a bishop. He is robust, eloquent, active, whole-souled and loyal to home, nation and church. He has been associated with the great and humble, and loves all human souls. His singing is peculiar,

pleasing and powerful. To hear him sing, "We are coming, Father Abraham, six hundred thousand more," is well worth the price of admission. The lecture is patriotic, pathetic, humorous, eloquent, historical and back of all one sees a great big, broad and deep soul, whose every word is interesting.
